Please check with Cary and see if he would like for you to send to Taber? Thanks.

AG

Cary & A.G.

If there was ever a time in my lifetime and possibly in our nation's history that reveals the power and peace that an 831B provides for the small business owner IT IS NOW! I've had conversations and heard of conversations from private practice docs that are at a loss at what to do. The responsibility they feel to their team members weighs heavy on them as they struggle with how to pay them and the ongoing fixed expenses of private practice as the Oklahoma Dental Association and American Dental Association recommendation for all dentists to scale down the number of patients being seen and treat emergencies patients only.

So, I want to thank you for the gift of setting up a reinsurance company for me. Though I no longer own my practice I can easily visualize the comfort and peace of mind it would have provided during this unprecedented time. It would allow me to react to this crises from a place of compassion and not out of self preservation. I would literally be loosing much sleep, day after day after day, until this crisis is over and then have continued concerns for months as we tried to dig out of the hole left from the COVID-19 virus protective practices.

Again, I can't thank you enough for all you've done for me in this area especially in the light of our current events.

Thanks!

Andy & Rhonda [REDACTED]
